 CD quality (320 kbps)

Switch to advanced mode
 Approximate size 10.35 Mb
 Approximate cost \$0.104

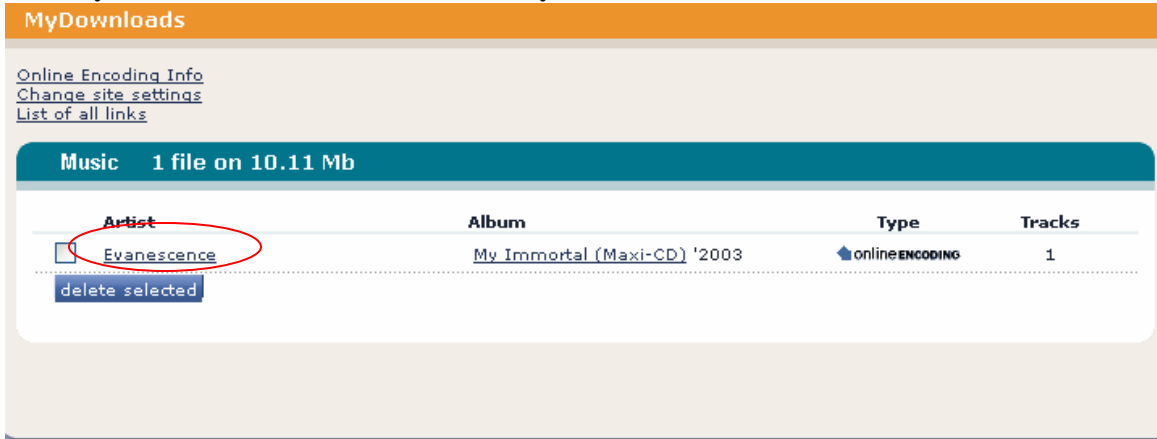

Select OK when done!!

- Go back to the main page and use the controls to navigate to MyDownloads

- Under your downloads click on the artist you have encoded for download

- The list will expand down for downloading...

- Click on the FILE button (looks like an arrow) to start the download process.

- Save the file TO DISK, putting it into your MyMusic folder (or perhaps you computer is already configured to save it to the files we explored before)

In order to download needed file you should click right mouse button on the appropriate link and in the opened dialog choose "Save Target as..."
